

CALCULATION ENGINEER (M/F/D)

Full-time 38,5h / Steyr

Minimum Salary €3.300

YOUR MISSION

- **Innovative Calculations and Simulations:** Take responsibility for conducting calculations and simulations for industrial applications, such as powertrains of wind turbines, rail vehicles, generators, motors, and agricultural applications.
- **Development:** Develop and optimize calculation methods and models, including creating your own tools to increase efficiency.
- **Project Management:** Manage the pre-processing and post-processing of calculation projects and carry out feasibility studies.
- **Technical Documentation:** Prepare detailed technical documentation and analyze customer requirements to develop tailored solutions.
- **Team Support:** Assist the sales and development teams with technical issues and work closely with design and application engineering.

WHAT YOU BRING

- **Technical Excellence:** You have an in-depth technical education, ideally a degree in mechanical engineering, or you bring many years of relevant professional experience.
- **Calculation Specialist:** Your solid knowledge in the calculation and simulation of powertrains, along with your experience with calculation software (e.g., ROMAX, SimPro Quick, KissSoft) or in the design and development of mechanical components/systems, sets you apart.
- **Autonomy:** You work independently and in a structured manner, with strong problem-solving skills that enable you to effectively overcome challenges.
- **Communication Skills:** Your fluency in English allows you to communicate confidently and persuasively on the international stage and successfully support our global projects.
- **Personality:** You impress with your open and sociable nature and look forward to collaborating in an international team.

WHO ARE WE?

NKE AUSTRIA is a leading manufacturer of high-performance **bearings** for wind, rail, and industrial applications, headquartered in Steyr, Austria. Since its founding in 1996, NKE has been committed to the precision and quality of its products and services and is trusted by major OEM and aftermarket companies worldwide.

In 2016, the company became part of the Fersa Group, a Spanish multinational corporation.
