

Your career is on track.

# Product Owner (m/w/d)

We detect and track trains in real-time and know exactly what is happening along the rail. For this, we use state-of-the-art technology and unique solutions for the global railway industry. Are you ready to shape the future with us?

## **Your main roles and responsibilities**

- Be the link between customer/sales and R&D
- Translate high-level requirements into concrete product specifications
- Work in an interdisciplinary and agile R&D team
- Drive development projects forward and manage the product backlog
- Prepare products for international market launch
- Support products throughout their life cycle

## **You are just right for this role if**

- you always have the big picture in mind but still have a love for details
- you have made a technical education
- you have interest in embedded safety systems, are enthusiastic about digitalisation and have an entrepreneurial mindset
- you enjoy technical and challenging tasks
- you would like to use your English skills for daily communication
- you find it easy to work in a structured, independent and organised manner

## **We offer you**

- a secure job in an international environment
- an agile and open corporate culture
- the possibility to work from home
- the opportunities for personal development and further training
- attractive benefits such as free lunch, fruit and coffee, free childcare, numerous sports activities, company events and much more
- a gross annual salary starting at 35.000 EUR - the actual salary is based on the current market, qualifications and experience
